

Novartis in the Czech Republic

Novartis was created in 1996 through a merger of Ciba-Geigy and Sandoz. Novartis and its predecessor companies trace roots back more than 250 years, with a rich history of developing innovative products. More than 1 billion patients worldwide use our medicines and we are always looking for new ways to expand patients' access to the latest treatments.

The company's global headquarters is located in Basel, Switzerland. We employ more than 109,000 people worldwide of more than 140 nationalities. Novartis has been operating in the Czech Republic since 1997. It is divided into two divisions.

Innovative Medicines

This division consists of two business units - Pharmaceuticals and Oncology. Their task is to bring innovative, patented medicines to the market.

Novartis Corporate Center

Novartis Corporate Center, Prague, is one of six strategically located corporate centers established by Novartis globally. It brings together expert capabilities and talent across functions, and is an innovation hub that drives the business forward. It is home to 1750+ associates of 75+ nationalities who work to deliver on the Novartis purpose of reimagining medicine to improve and extend people's lives.

Company history

The history of the company can be traced back to the middle of the 19th century, when the three companies that would go on to form Novartis (Ciba, Geigy and Sandoz) were established. Novartis was formed in 1996

when Sandoz joined with the already merged Ciba-Geigy.
